

## To Up Ruble Value

New Rate Effective On Jan. 1

MOSCOW — (AP) — The Soviet Union declared today that its new heavy ruble will be worth more than the dollar. Western economic experts in Moscow said the chief motive probably was prestige.

Under a decree the official rate of exchange will be changed Jan. 1 from four rubles for \$1 to one ruble for \$1.11. The Soviet government said the new rate would reflect a fourfold increase of the ruble to be put into effect on that date.

However, the ruble that will be put into circulation at that time is being exchanged for 10 of the present rubles.

The official Soviet news agency Tass said in its announcement of the currency revaluation that the state bank was instructed "to increase the rate of exchange of the ruble with the currency of other capitalist countries in conformity with the higher gold content of the ruble."

That content is going from .22 grams in the old ruble to .38 grams in the new.

Western economists here said prestige was more likely one of the motives for the currency revaluation because of the weakness the dollar has shown recently in foreign markets—a weakness that has led to such things as the pushing up of the price of gold on the London exchange.

They said the actual effect of decreasing that the dollar will be worth only 90 kopecks—there are 100 kopecks in the ruble—instead of four rubles was negligible unless the ruble is made into convertible currency which can be freely changed into other money in international commerce. At present the ruble has an arbitrarily set value which bears little relation to world or domestic prices.

No mention was made in the announcement of the present special tourist rate of 10 rubles to \$1.

## Flood Damage Funds Totalling \$6,223 Approved for County

Pettis County has been granted \$6,223, in federal funds for the repair of flood damages to public facilities, Dean Lupkey, Director of the Missouri Civil Defense Agency, has announced.

Lupkey said the grant was made after approval of the county's application by his office and the federal Office of Civil and Defense Mobilization.

The County had requested \$24,082.05. Federal inspecting officials recommended \$7,582.00. The Missouri Civil Defense Agency set the amount at \$7,582.00 but the final federal figure was \$6,223.

The funds are available for temporary repair of public facilities damaged in the March 20-April 25 flood period. The money will be paid only upon the receipt of bills for materials and labor used in the flood repairs.

## Judge Remembers But Fines Anyway

MIAMI, Fla. (AP)—Judge Fredrick Barad took a long hard look at a traffic offender who appeared before him Monday.

"Where are you from?" asked Barad, a native of Czechoslovakia who served with Czech guerrillas during World War II.

"From Hungary," replied Arthur Schindler, 39, North Miami Beach.

This confirmed Barad's belief that he once had seen Schindler in a slave labor camp. Barad had observed the camp and the workmen while on a detail to blow up a railroad bridge.

Barad told Schindler he was glad to see he had made it through the war. Then, putting memories aside, Barad returned to business and fined Schindler \$10 for going the wrong way on a one-way street.

## Hints Nixon Is Against Key Position

Kennedy Says VP Has Reservations For Republicans

PALM BEACH, Fla. (AP) — President-elect John F. Kennedy was reported today to have discovered that Vice President Richard M. Nixon has reservations about the idea of Republicans taking key positions in the new Democratic administration.

Kennedy, winner over Nixon in the presidential election, is understood to have sounded out the vice president on this matter at their history-making conference Monday at Key Biscayne, Fla., where Nixon is vacationing.

Kennedy returned to his headquarters here immediately after the 63-minute meeting and prepared to confer at lunch today with a Democrat who may get a Cabinet post or some other top position in the Kennedy regime. He is Connecticut Gov. Abraham Ribicoff, a key adviser to Kennedy during the campaign.

Kennedy told a news conference after his session with Nixon that he did not offer the vice president a post in the new administration.

But sources in a position to know said Kennedy discussed with Nixon the possibility of naming some Republicans to important positions, particularly in the fields of foreign policy and national security.

Nixon, it was understood, did not speak flatly against the idea. But he is known to question whether—against the background of the hot contest he gave Kennedy on the popular vote—it would be wise from the standpoint of his party's future for renowned Republicans to join the Kennedy team.

Both the president-elect and Nixon called the Kennedy-instigated conference cordial and frank. Kennedy termed it very beneficial to him and said he and the vice president will meet again, probably early next month.

## Count Alters Senate

25 States To Gain Or Lose Seats

WASHINGTON — (AP) — Twenty-five states will gain or lose seats in the House of Representatives as a result of the 1960 census, the government announced today.

The Commerce Department announced that the total population of the 50 states was 179,323,175 on last April 1—the date of the once-a-decade census.

That is an increase of 18.5 per cent from the 1950 total of 151,325,798. Officials said that the total population figure would exceed 180 million once they add in servicemen, dependents, government personnel and businessmen living overseas.

The changes in congressional representation were calculated on the basis of population shifts between 1950 and 1960.

A formal report calling for re-alignment of the House, as provided by law, was transmitted to President Eisenhower at Augusta, Ga., by Secretary of Commerce Frederick H. Mueller.

Under the reapportionment that will not take effect until the 1962 election, 16 states will lose seats in the House. Nine states will gain seats.

California will be the biggest gainer, adding eight seats to the present total of 30. Florida will get four new seats, making the new total 12. There will be gains of one seat each by Arizona, Hawaii, Maryland, Michigan, New Jersey, Ohio and Texas.

The census shows Kansas has a 1960 population of 2,178,611 and Missouri 4,319,813.

Kansas gained 14.3 per cent from its 1950 population of 1,905,299. Missouri gained 9.2 per cent from 3,954,653.

## City Council Votes

## To Investigate Need For Urban Renewal

By D. KELLY SCRUTON

The City Council Monday night at a recessed meeting went on record to investigate the possible need of either an Urban Renewal Project or a low rent Public Housing project. The Council voted seven to one approving a resolution for each project.

In the voting Councilman E. B. Smith voted no on both resolutions while Councilmen Earl Paxton, R. N. Snively, Woodrow Garrison, E. Glenn Lewis, Pat Clark, Jack Cunningham and Raymond Roberts all voted favoring both.

During the meeting Smith explained to the Council and those in the Council meeting that he was not opposing the project because of the company he is affiliated with. He went on to explain his experience in housing rentals and that he was not "completely sold" on the proposals.

The Urban Renewal project is

## Teen-agers Defy Police at School

NEW ORLEANS, La. (AP)—Police repulsed 100 or more teen-agers today trying to break into the grounds of McDonogh No. 19 public school, one of two integrated Monday for the first time.

The teen-agers defied police orders to stay on the opposite side of the street from the three-story school.

They circled the block and tried to gain entrance to the school where three Negro girls came to first-grade classes this morning, accompanied by six U. S. marshals.

Mounted police and foot patrolmen tried to hold the white youths back, but they scattered in all directions.

At the William Frantz school, several children walked along the opposite sidewalk carrying signs reading "We don't want a federal

dictator" and "Keep the niggers (sic) away."

"The only thing next is intermarriage," was one of the shouts from the crowd across the street. There were reports that less than 250 pupils of the total combined enrollment of 1,000 attended classes at the two schools.

Police arrested a man at the Frantz school and hustled him away. Officers said he was carrying a concealed weapon but it turned out to be a toy pistol.

## Tornado Warning Out for Sedalia And Central Area

CHICAGO (AP)—The Weather Bureau said today one or two tornadoes are likely this afternoon in an area that includes parts of west central Illinois, southeastern Iowa and central and northeastern Missouri.

The forecast: "Thunderstorm activity in southwestern Missouri is expected to intensify early this afternoon and move northeastward with scattered severe thunderstorms accompanied by large hail, locally damaging surface winds and the possibility of one or two tornadoes likely during the period from 1 p.m. to 7 p.m. CST. Area specifically concerned is along and 60 miles either side of a line from Sedalia, Mo., to 30 miles southeast of Moline, Ill."

## Shot Father-in-Law In Battle Sunday

LIBERTY, Mo. (AP)—Walter T. Simmons, 44, has been charged with first degree murder in the shooting of his father-in-law during a gun battle Sunday night.

John E. Barnes, 56, was killed and Simmons was wounded in the right side at a farm six miles southeast of Liberty. Simmons is reported in satisfactory condition at a North Kansas City Hospital.

Simmons' wife divorced him recently, and Simmons told officers he had walked to the Barnes home to talk to her about alimony. He said Barnes started shooting at Simmons approached the house, and he returned the fire after being hit.

## Capsule Plucked from Sky

HONOLULU — The U. S. Air Force did it again Monday, plucking a Discoverer satellite capsule out of the skies for the second time.

Proud airman declared the catch was routine.

The Air Force, which calls the gigantic recovery area a "ball park," could point to a climbing fielding average.

Snared in the 250 by 50-mile "ball park" 500 miles northeast of Honolulu was the military spy capsule ejected by Discoverer XVII.

The first 12 Discoverer capsules were lost in the vast Pacific. Number XIII was the first recovered, although it landed in the ocean and was retrieved by a Navy frogman dangling from a helicopter.

On Aug. 19, a C119 Flying Boxcar made the first catch of an object from space. That was Discoverer XIV's capsule.

Discoverer XVII's capsule was

## Deer Hunters Out In Force Opening Day

Note Big Increase In Hunter Numbers As Season Opens

JEFFERSON CITY (AP)—Hunting pressure throughout the state was tremendous on this first day of Missouri's seven-day gun season on whitetail deer, the Conservation Commission reported.

Agents from many areas reported a big increase in the number of sportsmen from outside the state and a substantial boost in the number of groups using trailers or tents to be close to their hunting areas. Hotels and motels were doing a big business.

The weather was balmy. Brief showers fell intermittently especially in the southern half of the state and a strong south wind kept the woods noisy.

St. Genevieve County, for years one of the most heavily hunted counties in the state, experienced lower pressure this time. Agents said surrounding counties were taking up the shift. Thousands from the St. Louis metropolitan area hunted in Washington, Franklin and Gasconade counties.

Greene County's pastures have become attractive to a greater number of deer and the hunters followed them this year in droves. The whitetails have become bulky on cattle forage. Archie Walker of Stafford got a 250-pound, eight-point buck in the eastern part of Greene County just before 8 o'clock.

## Disputed Ballots Holding Up Count

JACKSON, Mo. (AP)—Forty six disputed ballots are holding up the final vote tally in Cape Girardeau County.

County clerk Rusby Crites said the 46 absentee ballots had not been officially turned over to him so the official tally could not be made.

Democrats in the county said they will seek a court order to get the challenged ballots counted.

Republicans said the challenges were over a provision of law that says a person can vote absentee only if he is out of the county on election day. This, the Republican judges contend, was not the case in most of these 46 ballots.

## Navy Crashes Take 10 Lives

Rescue 'Copter Down At Manila Crash Site

MANILA (AP)—Two U. S. Navy plane crashes at approximately the same spot today claimed the lives of 10 persons including the admiral commanding the base at Subic Bay.

Killed along with Rear Adm. Arthur F. Spring, 52, was his wife, Clare, 52.

Also killed were the admiral's aide, Lt. (j.g.) Karl Ziegenhagen, Gary, Ind.; the pilot, Lt. Cmdr. Wade K. Smith, Clinton, Tenn.; the copilot, Lt. (j.g.) Kenneth Cowles, whose father, Frederick, lives in San Marino, Calif.; and Airman Cecil G. Johnson, whose father lives in Kansas City, Mo.

Four more men, including a U.S. Marine and three Philippine constabulary personnel, were killed when their helicopter crashed shortly after noon near the wreckage of the ill-fated amphibian carrying the Spring party.

Their names were not immediately disclosed.

They were among eight aboard the helicopter, which was dispatched from the carrier Hornet to the spot where the amphibian had crashed.

Of the eight, the pilot and copilot were uninjured. An American Navy doctor was slightly bruised and a U.S. enlisted man suffered minor burns.

Two U.S. Air Force paratrooper medics later jumped to the remote area where the admiral's plane crashed and found the victims. There were no survivors.

The Springs attended a military dinner-dance at Manila Monday night. They were flying back to Subic Bay.

The wreckage of the Albatross was found about 2,700 feet up Mount Mariveles on Bataan Peninsula, overlooking Subic Bay where the United States maintains its key base for supporting 7th Fleet operations in the South China Sea.

Spring was generally recognized for having promoted friendly relations with Filipinos.

He presided at the turnover of the town of Olongapo, formerly operated by the U.S. Navy, to the Philippine government.

## Asks OAS Action On Cuban Aid

Guatemala Charges Cuba With Aiding Rebels With Arms

GUATEMALA CITY (AP)—President Miguel Ydigoras of Guatemala has asked the Organization of American States to take action on his charges that Cuba gave aid to rebels who have been fighting his forces since Sunday.

Rebellion broke out at Puerto Barrios, on the Atlantic coast 150 miles northeast of the capital city and at Zacapa, 70 miles northeast. Ydigoras made a nationwide broadcast Monday claiming the army and air force had been successful in their attacks on the towns. He said the rebels were seeking to negotiate but he was refusing to deal with the "traitors."

Since the garrisons at Puerto Barrios and Zacapa first turned against him, the president has charged repeatedly that the government of Prime Minister Fidel Castro had a part in the uprising.

His charge was heard Monday night at a special meeting in Washington of the OAS Inter-American Peace Committee, which then authorized its chairman to get further information from the Guatemalan ambassador.

## Negro Woman Released After Fatal Shooting

Mrs. James Cannon Woodbury, 32, Kansas City, who admittedly shot her husband twice, killing him when he fell asleep after a bitter, nightlong argument, was released by the Kansas City prosecutor's office for lack of sufficient evidence Monday.

Mrs. Woodbury was arrested at her home in Kansas City early Monday after the alleged assault ending a domestic quarrel which had lasted for several years. Dead is A/1c James C. Woodbury, 38, stationed at Whiteman AFB.

Mrs. Woodbury, according to the Kansas City police department, said her husband had two weapons on the bed and at one point brandished a .38 cal. pistol and threatened to kill her and their two children.

She told officers her husband had been disturbed and argumentative since he was broken from the rank of sergeant recently. The Woodburys are Negroes.

## College Night Set for Nov. 21 At Smith-Cotton

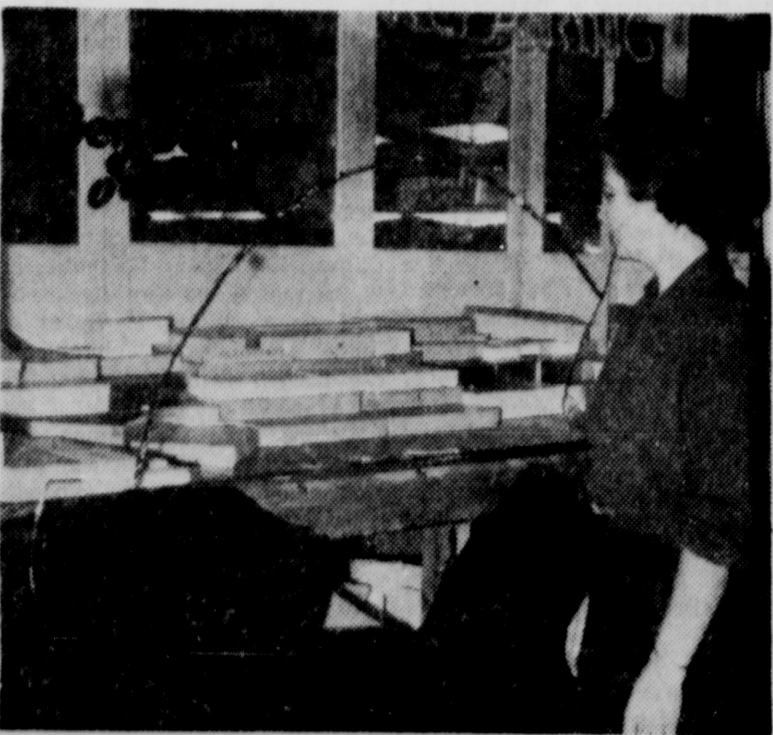

The night of Nov. 21 will be "College Night" at Smith-Cotton High School with some 25 colleges and universities from the Missouri area participating.

The school is offering this service to all juniors and seniors in the area, from other schools including the parochial schools. John Thomas, Director of Guidance, said the school is happy to offer the service, and hopes it will become an annual event.

At 7:30 p.m. all juniors and seniors along with their parents will meet in the S-C Auditorium, where William C. Hopkins of the Sedalia Chamber of Commerce will address the group on the importance of a college education.

About 8 p.m. the group will attend the first of three 30-minute sessions, the student will be given college of their choice. Students will have an opportunity to attend three sessions. After these sessions, the student will be given a chance to return to any college counselor for more information.

Announcement was made by Mr. Lloyd, superintendent, that Mrs. Pat Carpenter has been assigned a position on the faculty.

The program was given by Miss Sylvia Orth, speech correctionist, who gave an interesting discussion on the speech program in the Smithton school.

Coffee and doughnuts were served by the hostesses, Mrs. Mac Muschaney, Mrs. Frank Page, and Mrs. George Green.

## Doctor Says Liz Taylor 'A Sick Girl'

LONDON (AP)—Elizabeth Taylor's American doctor said today the actress is "still a sick girl."

Dr. Red Kennamer, of Los Angeles, at the urging of Miss Taylor's husband Eddie Fisher, arrived Monday night. The actress suffering intense head pains, was semi-conscious under sedation.

"We're encouraged," the doctor said this morning.

He said he hoped to be able to issue a medical bulletin later in the day.

With Dr. Cary Goldman, and Lord Evans, Miss Taylor's British physicians, Dr. Kennamer had just come from the movie star's bedside. Lord Evans is one of Queen Elizabeth II's doctors. He was brought into the case last month when the beautiful actress continued to run a fever every afternoon.

## Could Take Program Out Of Politics

JEFFERSON CITY (AP)—Olen Monsees, of Smithton, president of the Missouri Farm Bureau Federation, said Monday the nation's land grant colleges could take the farm program out of politics.

In a speech prepared for the 46th annual meeting of the federation, Monsees challenged the land grant colleges to assume leadership in developing a farm program based on sound economic principles.

In line with past Farm Bureau policies, he expressed the feeling that the soil bank is an excellent temporary help to farmers.

"A sizable land retirement program is urgently needed as a temporary measure," Monsees said, "to help farmers make the adjustment that must be made to correct the adverse results of past programs."

"We believe that to achieve the best results per dollar of public expenditures, such a program should be voluntary and should permit the retirement of whole farms."

One of the major arguments against the soil bank was that it permitted large landholders to establish their entire holdings under the soil bank and make a fair return without turning a hand.

Monsees said: "Price support levels should take account of competitive conditions, supply and demand and market trends. They should not be based on formulas which ignore these factors, nor be left completely to the discretion of any secretary of agriculture."

"We oppose the establishment of maximums on price support loans. . . A ceiling on individual loans wouldn't remove the basic causes of high program costs and would tend to reduce the size of farm units, thus lowering production efficiency."

He said he hoped to be able to issue a medical bulletin later in the day.

## Barbara McCown, Robert Roberts United In Double Ring Ceremony

In an impressive and beautiful double ring ceremony, Miss Barbara Ann McCown, Windsor, exchanged wedding vows with Mr. Robert Eugene Roberts, Clinton, Friday evening, Nov. 4.

The Rev. Richard Lamborn performed the ceremony in the Calvary Baptist Chapel before an altar decorated with large bronze mums, small golden and bronze pompons and greenery. A large arch stood overhead entwined with green fern and bronze and golden pompons. Matching candelabra were on each side of the arch with long ivory candles and bronze satin ribbons.

The bride is the daughter of Mr. and Mrs. E. I. McCown, Windsor, and the groom is the son of Mr. and Mrs. Orval Lee Roberts, Sr., Clinton.

Given in marriage by her father, the bride was dressed in a full length gown of Chantilly lace and layers of tulle beneath the four point over skirt. The neckline was scalloped and pointed, tapered sleeves covered the arms. Her velvet lace crown held her white illusion finger tip veil, made of sheer nylon net. She carried a bouquet of yellow sweet-heart roses encircling a white, yellow centered, orchid with English ivy and pale yellow satin streamers tied in love knots.

Mrs. Sara Houk, matron of honor, wore a street length dress of maize embroidered taffeta with shoulder length veil. Her corsage was of large bronze cushion mums with green trimming.

Miss Deloris McCown, cousin of the bride, served as bridesmaid. Her dress was identical to that of the matron of honor. She also had a corsage of large bronze cushion mums with green trimming.

Miss Wanda Warren, Miss Gertrude Harper, Miss Norma Parks and Miss Dorothy Goldsmith served as candlelighters. They wore identical dresses of stone green embroidered taffeta with matching veils and cummerbunds with white accessories. Their corsages consisted of six golden cushioned mums with yellow trimmings.

The groom was attended by Mr. Willard Houk as best man and Mr. Orval Lee Roberts, Jr., a brother of the groom, was groomsmen.

Mr. Tommie and Mr. Jerry McCown, brothers of the bride,

Mrs. Robert E. Roberts

and Mr. Donnie Howell, cousin of the bride, were ushers.

Miss Debbie McCown, sister of the bride, and Miss Sherry Lee Roberts, niece of the groom, were flower girls. They wore light yellow organdy dresses with puffed sleeves and round necks. They were trimmed in white lace and yellow satin ribbons. They wore shoulder length veils with flower wreath crowns and on their arms were tiny wrist corsages of bronze pompons.

Master Wayne Howell, cousin of the bride, served as ringbearer. He carried two white satin heart-shaped pillows which were trimmed in white nylon lace on which the rings were centered.

The bride's mother chose a two piece sheath dress with white accessories. The groom's mother was dressed in a royal blue flare pleated dress with black accessories. Both wore golden cushioned mums corsages.

A reception in the church basement followed. Mrs. Norma McCown served the four tier wedding cake and Miss Mary Anna Moomaw served the punch. Mrs. Effie Howell was in charge of the guest book and Mrs. Gene McCown in charge of the gifts.

After the reception the couple left for a wedding trip through southern Missouri. They will make their home on a farm one and a half miles southeast of Windsor.

## Prestige Like Health, Says British Comic

SALT LAKE CITY (AP)—British humorist Malcolm Muggeridge says the rich and powerful are always disliked and Americans, because they don't like being disliked, have done "such absurd things as take opinion polls to find out how your prestige is." He said prestige is like health. "The moment you start thinking of it you probably haven't got it."

"The fact is the American way of life you have created has become what practically everyone in the world wants—even though I think they are somewhat misguided," Muggeridge, a former editor of the British humor magazine "Punch," said at a lecture here Monday night.

### Intoxication Charge On Gravel Dropped

LOS ANGELES (AP)—Municipal court has freed Camille F. Gravel, former Democratic national committeeman from Louisiana, of an intoxication charge arising from an incident aboard an airplane last July 1.

The complaint was dismissed Monday after the prosecutor told the court that he did not have a strong case.

Gravel, who had pleaded innocent, was arrested when he alighted from an airliner to attend the Democratic National Convention. The pilot had radioed a report that a passenger was drunk.

## Mrs. Garansson Attends All American Conference

Mrs. Marjorie Garansson, National Security chairman, Missouri Federation of Business and Professional Women's Club, Inc., attended the 11th meeting of the All American Conference to Combat Communism, held at the Muehlebach Hotel in Kansas City Nov. 10 and 11, and was a member of the panel program on "Know Your America Week," on Friday.

Mrs. Garansson was selected for the panel, not because she was National Security chairman for the state BPWC federation, but because of the work she has done in promoting "Know Your America Week" in Sedalia for the past several years. She has attended every conference meeting since 1956, and was responsible for each "Know Your America Week" observance in this city since that time.

On the panel with her Friday morning were: Joseph J. Woolfson, chairman of the Know Your America Week committee of the All American Conference; Otto DeVilbiss, national representative of the Benevolent and Protective Order of Elks, and Judge Robert W. Hansen, national representative, Fraternal Order of the Eagles. The panel program presented the purposes and advantages of "Know Your America Week," how to organize "Know Your America Week" programs and the Goals We Seek.

Speakers appearing at the Conference were: Kiegi Tomatsu, president of the Global Culture Association of Tokyo, Japan, who talked on "The Problems of Fighting Communism in Japan;" Robt. E. Hansen, senior vice-commander-in-chief of the VFW, on "Building Loyalty, Key to VFW Goal;" and the banquet speaker, the Honorable Allen W. Dulles, director of Central Intelligence Agency.

A youth panel on "What Youth Can Do to Advance American Freedoms" with Herbert Phillips, author of "I Led Three Lives," as panel moderator. On the panel were John Hvasta, taken prisoner by the Communists while a student in Czechoslovakia, five years a prisoner;

## A Vote for Moderation

Sen. John Kennedy's hairbreadth victory over Vice President Richard Nixon gives him the White House without the great popular mandate a new president inevitably seeks for his programs and policies. That seems to be the general conclusion, after his cliff-hanging victory a week ago.

Not since Benjamin Harrison unseated Grover Cleveland in 1888 has a winner gained so small an edge in the popular vote. And, as if to underscore the closeness of the presidential decision, Republicans bit lightly into the Democrats' hitherto very large margins in the House and Senate.

The general result therefore will strike many observers as a vote for moderation in both national and foreign affairs, as a vote for change — but not much of it. This was no loud call for a bold, liberal course of action in the unfolding 1960s.

In giving Kennedy the necessary electoral majority, the voters did, for the first time since 1952, give the nation a White House and a Congress under the same party command.

## Nixon Most Likely 1964 Contender

By DREW PEARSON

WASHINGTON — There is one development from the recent election you can write down, definitely: Richard M. Nixon is likely to be the next candidate for President on the Republican ticket.

Nixon's fighting finish and the terrific scare he gave the Democrats on election night when JK was confident he could coast in has pepped up the Republican party as at no other time following an election defeat.

Nixon has had a lot of offers to join various law firms, including that of ex-Gov. Tom Dewey. Nixon, however, is not going to take any of these — soon, he will look around carefully for a springboard which can keep his name in the news and put him in line for the nomination in 1964.

Meanwhile it's better than a 50-50 bet that Nixon will run for Governor of California. He has noted the wobbly political power of once popular Gov. Pat Brown, Democrat, and he has no compunction about pushing his old supporter, ex-Gov. Goodie Knight, to one side again. He pushed Knight over to a Senate race and certain defeat two years ago when Knight was a sure bet to be re-elected governor. Now Knight is itching to run again.

However, one of the best ways to stage a comeback for 1964 is a routin' tootin' race against Democratic Governor Brown two years hence, which would roll up a heavy vote and victory. You can write it down he will take the road which will put him in line for a comeback — soon.

### Ike's Depression

President Eisenhower flew to Augusta, Ga., very depressed over Senator Kennedy's victory.

### Thought For Today

**REBUILDING SOCIETY** — Man is a social being who must, normally, live with others for his fullest development and perfection.

Therefore, the kind of job we have, the political system which governs us, the schools we go to, the type of international organizations which exist, whether or not we have enough to eat — all of these social facts are shot through with spiritual undertones. A good society makes it easier for us to be good. A corrupt society or a sex-oriented society continually puts temptations and roadblocks in our path to goodness.

We don't live in a vacuum. When we are sick or hungry or depressed it is hard to think of prayer. The man who must work long hard hours — perhaps even hold two jobs — will find it difficult to get out of bed for church on Sunday. And what of his family? Often, through no fault of his own, such a father must neglect his wife and children for sheer lack of time.

You could multiply examples many times, but the basic point remains the same: Your body and soul form one human being. They are so intertwined that whatever affects your body, your mind or your environment often has serious consequences for your soul.

Even though we know or feel that many things are wrong with society, we still need an answer, a plan of action which we can use to deal with the situation.

How can anything be done to solve our problems? Where can we begin to make a dent in what is obviously too big a matter for one man to solve?

For example: There are racial problems, the crime rate is high, family life is generally not Christian, economic life is usually centered around making money rather than serving the common good, there is corruption in public life, and too many people are blindly anti-UN and anti-foreign aid of any kind.

What is needed is a two-pronged approach aimed not only at Christianizing people, but the society in which they live as well. That is, our customs, laws, and institutions — as well as the people themselves — must be made to conform to Christian standards.

In order to do this there are two virtues which we must practice. The first is Social Justice, which requires that we organize to set up a good society which recognizes the nature and needs of man. The second is Social Charity, which is the good will, tolerance and patience which help to encourage and unify us in our work of social justice.

Where can we begin?

According to our talents, we can concentrate our efforts on social and moral reform. In either case we are making an important contribution to the reconstruction of society.

Americans will now watch keenly to see if that unity produces the more effective national government claimed for it.

The old coalition of conservative southern Democrats and Republicans is still there on Capitol Hill, as it has been since 1939. It remains to be seen what Kennedy can do to compel the enactment of programs this combination has long successfully resisted.

At this early moment, despite the legislative history of the past two decades, it would be risky to guess the answer will be little or nothing. For Kennedy already has howled over incredible obstacles in gaining the world's most powerful office.

But whether the verdict of election was gained by one vote or ten million, the majority's decision prevails. John Fitzgerald Kennedy is America's president-elect, and as the country's new leader he deserves the opportunity first to demonstrate performance without immediate, persistent and immoderate bickering of the opposition.

Though at the start of the campaign he had announced he would stay out, by the time election night rolled around Ike had worked himself up into a real fury over Kennedy's criticism. He particularly resented Kennedy's charge that the Eisenhower administration was standing still, that the USA had lost prestige.

Eisenhower, at the age of 70 and with over 40 years of military experience behind him, is now playing for the history books. He has wanted to go down in history as a man of peace as well as a great commander in time of war. And he now believes that Kennedy's charges during the campaign plus his victory on November 8 will go down in history as an indictment of his eight years in the White House.

Until the very end, Ike was confident for Nixon. He figured a mighty surge of Republican votes would put the Vice President over the top. His hopes were buoyed by a telephone call from Governor Rockefeller two hours before the polls closed in New York, when Nelson confidently predicted that New York would surprise everyone and go Republican. Despite all the polls to the contrary, the President believed this.

So, when New York state gave Kennedy the biggest plurality of any in the union, Ike was stunned. This was why he went to Augusta very depressed and why he sent one of the curtest congratulatory messages in history to the new President-elect.

### Mr. K and Mr. K

Some people may have been surprised at the cordial telegram sent by Premier Khrushchev to President-elect Kennedy. It fairly glowed with exultation over his victory.

What the public doesn't know is that early last fall the Soviet Embassy in Washington, headed by astute Ambassador Mikhail Menshikov, took a very careful reading on the two Presidential candidates. The report went back to Moscow that while on the surface both Nixon and Kennedy were alike, actually Kennedy was the more dynamic, the more courageous, and the more liberal. In addition, Soviet leaders already knew Nixon.

But the Russians have now become realists in regard to American politics. Khrushchev was advised when in New York to keep his mouth shut regarding either candidate. The same advice had gone to him from Ambassador Menshikov almost two months before. Foreign Minister Gromyko had received the same advice. They all concurred. And they kept their mouths shut.

Every member of the Soviet Embassy staff in Washington plus every other Eastern European diplomat smilingly said "no comment" regarding the American election. Or on some occasions they commented: "They're both the same. What difference does it make?"

Premier Khrushchev, however, has now made it clear that he's delighted over Kennedy's victory. American diplomatic reports from Moscow state that this is genuine. They also state that Khrushchev does not expect Kennedy to be any easy mark at the conference table, but much more reasonable than Nixon when it comes to constructive agreements for peace.

### Crisis In France

On top of General De Gaulle's other woes, fanatic right-wing French Army officers are planning a revolt against him. The plot is well under way and may explode any day.

Behind the plot is French Army resentment over De Gaulle's plan to make Algeria virtually an independent republic. The French Army had helped to put De Gaulle into power on the belief that he would champion their cause in Algeria, and now they're bitterly disappointed. For approximately 15 years the French Army has been in intermittent, sometimes definite mutiny against the Premiers of France. At times they thumbed their noses at civilian rule.

De Gaulle, however, has cracked down on them hard. As a military man, he knows what the score is. He also knows that some of his own officers are restless and plotting, has had the colonels and generals who are in on the current plot watched day and night.

The situation has become so tense that some time ago Communist leaders in Paris notified De Gaulle that he could count on the trained underground Army of the Communist party in case of trouble. What is feared most in Paris is an assassination attack on the President. De Gaulle is notoriously careless about his own protection. He drives to his country estate at breakneck speed, with no armed escort to speak of. It would be a fairly simple matter to crack up his car on one of these trips.

## Big Quarrel Among Commie Leaders

By WILLIAM L. RYAN  
Associated Press News Analyst

For a week world Communist leaders have been meeting at the summit. All the secrecy surrounding their sessions cannot hide a growing nervousness.

One basic point of cleavage worries them more than any other. It is not the question whether war is inevitable, nor the question of how Communist-ruled nations should develop internally. These are side issues.

The big quarrel concerns expansion of the Communist movement. This pits the leadership of Red China, Albania and possibly even the East Germans, backed by some chieftains from parties outside the Soviet orbit, against Nikita Khrushchev and most of the satellite leadership.

Black limousines have been scurrying back and forth through the Kremlin's turreted gates, bearing Communist chieftains to and from summit sessions. One gets the impression there is tough talk going on which will result in publication of a new manifesto.

The new pronouncement will be loaded with platitudes about the unbreakable solidarity of the Red camp under Moscow. But indications are that the leaders are making little progress toward patching up the main differences among them.

The big argument is this: Red China, backed by some dissidents from other Communist parties around the world, objects to Khrushchev's economic aid plans, especially with respect to underdeveloped countries. The Chinese resent any aid which tends to lend political stability to any government which is not Communist-oriented. Throwing Lenin's words

at Khrushchev, the Chinese insist that only violent revolution can lead to dictatorships of the proletariat.

Khrushchev's men urge patience and caution. They promise to use Soviet economic policy as "a main influence for world revolution," but project their program over 20 years. They promise to unfold this program at the next—22nd—Soviet Communist party congress, probably early in 1961.

The quarrel has made an important figure of Wladyslaw Gomułka, chief of Poland's Communist party. He is considered the only pro-Khrushchev man who has the ear and the respect of the Chinese Communists. Khrushchev appears to have few other real friends to whom the Chinese will listen.

The Chinese Reds do not want to wait until 1960 for the real beginning of a world revolution. Neither do many of the Communist leaders outside the Soviet orbit, who smell the heady scent of power now and who in 1960 would be too old or too dead to enjoy the fruits of a long-range Soviet program. They complain that Khrushchev sacrifices their interests for the sake of purely Soviet aims and policies.

All this tends to put the Chinese Communists in the light of being the greatest danger to world peace today. The big peril could well be that the Red Chinese and their supporters might prevail.

That would mean pressures would be stepped up quickly in all the world's critical areas. The world Communist movement then would be relying principally upon piling chaos upon chaos in attempts to expand communism's rule and influence as swiftly as possible.

There would be real danger then of global conflict.

Thus, while the Red quarrel eventually could lead to an explosion in the Kremlin, there would be little in this for the free world to cheer about.

## What They Say in Letters to Editor

L. L. STUDD (721 West Third St.) — The City Council of Sedalia on Oct. 18 unanimously authorized the execution of a contract to spend \$5000.00 of the taxpayers funds for improvements at the local municipal airport. This will make a total of approximately \$21,000.00, that has been authorized to date.

The so-called improvements actually consists of the installation of the necessary facilities to service the hangars at the airport which are privately owned and which are in reality garages for the privately owned planes based at the airport and it does appear that if the City does have this amount of surplus funds available that the funds could be more advantageously used for the repairs and maintenance of the streets of Sedalia instead of assessing the cost thereof against the property owners.

Here, then is another example of the friendly action of the City Council to further subsidize at the taxpayers expense a wholly unnecessary transportation agency that will neither provide employment to men or the payment of any taxes to Sedalia and the unfriendly action of the Council against the Missouri Pacific Railroad which was and still is the largest individual taxpayer, the largest individual employer of men in Sedalia and in addition thereto against the best interest and welfare of the presently employed Railroad employees in Sedalia and Pettis County.

Attention is directed to a Government ruling that in cases where the number of airline passengers averaged less than five (5) per day, the service may be immediately discontinued without any further authority. This has actually occurred in recent months at St. Joseph, Mo., and if the average of (5) passengers per day could not be maintained in a city the size of St. Joseph, Mo., it is reasonable to assume the average of (5) per day most certainly could not be maintained in a city the size of Sedalia, in which case the service could be discontinued without any further authority and which could leave Sedalia with a White Elephant on its hands.

I am quite sure the membership of the City Council were actuated by the best intentions and motives, but it does appear that before the Council should authorize the spending of any more of the taxpayers funds to further subsidize the local airport that the entire matter should be submitted to the voters of Sedalia for a decision and I am confident that such a bond issue will be overwhelmingly defeated.

## Junior High's No Place For the Social 'Rat Race'

Dr. James B. Conant, former president of Harvard University who has recently completed a detailed study of junior high schools, warns against junior highs being treated as "miniature senior high schools."

That is a caution worthy of attention by school boards, junior high principals and junior high Parent-Teacher Associations.

Socially, at least, most junior highs are aping senior high schools. In many communities the year that 12-year-olds enter junior high is the year when their social life begins in earnest.

The junior highs give dances, elect most popular students, choose queens of this and that and make heroes of their star football players.

With junior high the rat race to be "popular" begins and children just reaching adolescence start to think that being elected cheerleader or making the football

team or being named class favorite is more important, by far, than making good grades.

A teacher recently told me that by the time junior high students are ready for high school their social groups are already set, and that children who aren't "Leaders" in junior high hardly have a chance of becoming leaders in high school.

She also mentioned that steady dating now starts in junior high—not in high school.

All that, it seems, could be avoided if parents and educators would get together and agree to make junior highs what they were intended to be, a gradual transition between elementary school and high school.

As it is now in many communities, going from the grades into junior high is a giant leap from the natural ways of childhood to the teen-age world.

## Expert Aid Is Available On Stretching Your Dollars

By FAYE HENLE

Into my hands the other day a friend thrust a sheet of paper yellowed at the edges. Printed at the top was "Budget for..."

This budget had been prepared for her in the depression days of the 1930s by a department store. She wanted to know who could update it for her.

It was the late Elise Stapleton, well known budget counselor who had prepared the sheet. Are there any Elise Stapletons in business today? Where could I send my friend? If you'd like a budget drawn by an expert, where could you go?

Chances are you'd have to do the job yourself. But if you are aware of the resources in your community, you might find some excellent help.

Moving into the personal money counseling field are credit unions. In some areas there are programs currently training money management counselors. In a few areas such trained people are already at work. At most credit unions an interview with the treasurer can provide answers to many problems.

If you belong to a credit union ask for the budget work sheet. Fill it in and return with it to the counselor. You will be amazed at some of the suggestions you'll receive.

If possible, get a copy of the January, 1960, "Credit Union Bridge." This contains helpful hints on budgeting and how to get the most from your food, shelter, clothing, medical and credit dollar. Be sure to get on the list for next year's issue.

In some areas credit unions sponsor money management classes. They are for the whole family.

When I interviewed the research director at the credit union headquarters in my town, I inquired into the chief trouble spots causing people to seek help. They are:

High cost of food. Inadequate provision for meeting medical care bills.

Inability to budget and plan spending.

We also get people overcommitted in their borrowing. He told me this often happens when a bonus is received or drastic merchandise reductions are advertised. A family will set forth intending to spend a certain amount, the cash they carry. High pressure salesmanship and their own gullibility leads them into selecting more expensive merchandise, paid for under costly credit terms.

If you don't belong to a credit union, can you get budget advice?

Working as aggressively as the credit unions is the AFL-CIO through its community activities centers. Currently in 40 areas consumer information courses are in full swing with emphasis on food planning, planning for medical care, offering suggestions on how to invest, how to buy insurance and such. The AFL-CIO also maintains consumer clinics where you can get guidance on a host of money problems.

Bankers tell me they are getting more queries regarding budgets, too. Said one:

"Our questions come from two groups of people — those having trouble living on fixed incomes and younger folk convinced their earnings will not rise fast enough to meet the rising costs of education, food and clothing."

## Given Two Years For Profitsteering

PORTLAND, Ore. (AP)—A former federal farm official was sentenced to two years in prison Monday for profitsteering in grain storage contracts.

A partner in the venture with Earl C. Corey, former regional director of the Commodity Stabilization Service also was sentenced to two years. The partner was Lawrence M. Smith of Waterville, Wash. Their attorneys said they would appeal.

Corey was convicted on two counts of conspiracy and another of conflict of interest. Smith was convicted on 10 counts of submitting false statements and for conspiracy.

The government has filed a suit to recover \$249,000 paid to the Three State Warehouse Co., in which Corey was a silent partner.

## Pollution Suit At St. Joseph To Conference

KANSAS CITY (AP) — A pre-trial conference will be held Friday in St. Joseph, Mo. to clarify issues in the government's lawsuit against the city over pollution of Missouri River.

U. S. Dist. Atty. Edward L. Scheffler said a Justice Department official, Henry Depping, will fly from Washington to take part in the meeting.

The lawsuit, attracting much attention around the country, is the first brought under the federal Water Pollution Control Act of 1956.

St. Joseph voters twice have rejected bond proposals for construction of sewage disposal plants and the suit is the government's last step toward abatement of river pollution.

## Season Starts Today

## Deer Hunters Set Up Camp for Hunt

JEFFERSON CITY (AP)—Thousands of hunters set up camp in Missouri's deer woods today in readiness for Tuesday's deer season opening. The Conservation Commission predicts it will be the biggest rifle harvest of deer in history.

Shooting hours throughout the seven-day season will be from 6:30 a.m. to 5 p.m. For the first time in recent years the gun hunt-

ers will be able to pursue the whitetails on Sunday. In the past the maximum season has been six days to prevent any hunting on Sunday.

The commission estimated some 75,000 hunters will take to the woods and fields this year and 20,000 of them will be successful. Last year there were more than 68,000 hunters and the harvest was 16,396 deer.

In 53 counties, generally south of the Missouri River, any deer—bucks, does or fawns—may be taken. In the rest of the state bucks only, with at least one fork to the antlers, are legal.

The weather for opening day will be of the shirt sleeve type with temperatures rising into the 70s and 80s, generally under cloudy skies. Twenty-four hours ahead of time there was no prediction of rain for the first day.

The long range forecast, however, indicated the possibility of rain Wednesday or Thursday.

Despite the concentration of gunners, the archers can continue their bow and arrow quest of deer. The Conservation Commission said today at least 231 deer have been dropped by the bowhunters since their special season began Oct. 1. It runs through Dec. 15.

The archers got their big break this weekend in a special permit to hunt the deer heavy confines of Knob Noster State Park in Johnson County. The park has been a refuge for deer for many years and will remain so during the gun season.

In the first two days of the hunt in the park archers bagged 134 deer. That special season ends tonight. It should prove a boon to the gunners.

Animals frightened out of the park by the bow and arrow stalkers will be fair game for rifle shooters Tuesday.

The commission urged hunters to try some Ozark counties where there are plenty of whitetails but fewer competing hunters. Counties like Texas, Ozark, Howell and Douglas, the commission said, have a success ratio of about one deer to each three hunters while the ration in more popular counties is one to four.

The commission also urged hunters to help prevent gun accidents. There were nine hunting accidents last year, three of them fatal.

Hunters do not have to check their kills this year but they must return their deer tags to the commission, indicating whether they bagged a deer or not.

## Ranking Lightweight Contender Eyes Bout With Doug Valliant

PHILADELPHIA (AP) — Len Matthews, the No. 1 ranking lightweight contender, today looked ahead to his Dec. 6 fight with Doug Valliant after a subpar showing against Mexican champion Alfredo Urbina in a 10-round feature at the Arena.

"I'll be better against Valliant and I think I can beat him," the 21-year-old Philadelphia said Monday night after winning a close split decision over Urbina which was unpopular with some of the 5,354 fans. Matthews and Valliant fought to a draw last April in Miami.

The ring was showered with papers and programs when it was announced that Judges Lou Tress (47-46) and Nate Lopinson (46-45) ruled in favor of Matthews. Referee Zach Clayton called it even, scoring it 46-46. The AP scorecard showed Matthews ahead 47-46.

Both fighters weighed 136. Matthews racked up points by scoring heavily in the early rounds and in the ninth when he stunned Urbina. His record now is 29-3-2 while Urbina is 27-5-2.

## At Convention Hall Tonight

## Wild and Rugged Action Is Promised as Pros Meet

When you throw just anything into a stew pot, you're never sure just how it will turn out when you go to eat it.

Much the same situation exists tonight at Convention Hall when the wrestling pros go through their paces. Such a wide variance in styles is evident that it isn't easy to predict just what will happen, but this much can be promised—it will be wild and rugged action from start to finish. When you have a setup where

any one of six men is liable to break into the ring at any time it makes for some high-handed mat ramblings.

That's the case in tonight's main event. On one side will be popular Sonny Myers, Stan Stasiak and Thor Hagen. On the other will be Mike Paidousis, Lee Henning and Cowboy Rocky Lee.

The edge in speed belongs to Myers' team, but a slight advantage in roughing experience and extra weight belongs to the trio headed by Paidousis. With 300-pound Rocky Lee around to lend his heft to the effort, the whole affair shapes up as an interesting one.

Adding some spice to the card tonight will be a women's match between two polished pros—curvy Lorraine Johnson, the blonde beauty from Red Wing, Minn., and Judy Glover, a tough, ambitious gal with a yen for a title of her own and the added recognition that accompanies it.

Separate men's action pits Hagen against Paidousis in a battle of two ex-collegians, and Myers against the veteran Lee Henning, one of the most dangerous wrestlers in the trade.

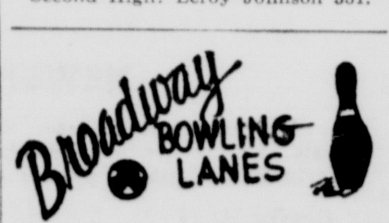

It's all set at 8:15 under the sponsorship of the Pettis County Post 16 of the American Legion.

## Writers Vote On MU Team By Landslide

By JACK HAND  
Associated Press Sports Writer

The unbeaten Missouri Tigers, winners of nine straight, have taken over the No. 1 place in the weekly Associated Press college football poll by a landslide vote of the 48-man panel of sports writers and sportscasters. Missouri had 34 first-place votes.

Missouri became the fifth team to hold the lead in the nine weeks of the poll, after running second for two weeks. When Minnesota, the defending No. 1 team, fell before Purdue 23-14, Missouri took over. Earlier in the season Mississippi and Iowa each led for three weeks. Syracuse and Minnesota each had one week on top.

After crushing Oklahoma 41-19 at Oklahoma, Missouri has only one more hurdle to clear. The Tigers' last regular season game will be played Saturday at home against Kansas.

The Iowa team upended by Minnesota a week ago bounced back impressively with a 35-12 victory over Ohio State and moved into second place. Iowa received six first-place votes to five for Mississippi, still unbeaten but tied once. Ole Miss advanced a peg to third by thumping Tennessee 24-3.

The leaders, with first-place votes in parentheses (points figured on a 10-9-8-7-6-5-4-3-2-1 basis):

1. Missouri (34) .....	457
2. Iowa (7) .....	379
3. Mississippi (5) .....	362
4. Minnesota (1) .....	328
5. Washington (1) .....	268
6. Duke .....	205
7. Arkansas .....	173
8. Navy .....	156
9. Auburn (1) .....	104
10. Ohio State .....	59

Others receiving votes were: UCLA 23, Michigan State 21, Purdue 12, Yale 9, Rice 9, New Mexico State 9, Syracuse 9, Alabama 8, Oregon 7, Florida 7, Utah State 6, Michigan 4, Army 3, Baylor 2, Texas 2, Kansas 1, Tennessee 1.

## Ice Hockey Star Happy With Minors

NEW YORK (AP) — Jack McCartan, goal-tending star of the 1960 U.S. Olympic ice hockey champions, is happy that the New York Rangers of the National Hockey League have sent him to the minors.

"I'll get a chance to play more and get needed experience," McCartan said Monday after the Rangers notified him he was being sent to Kitchener-Waterloo in Canada's Eastern Pro League.

The Rangers platooned McCartan with veteran goalie Gump Worsley.

SYDNEY, Australia (AP)—American star Earl Buchholz, St. Louis, was beaten in the quarter-finals of the New South Wales singles championship at the White City today by Australian Bob Hewitt, 6-4, 6-3, 5-7, 5-7, 6-4.

Wimbledon champion Neale Fraser made the American youngster, Chuck McKinley also of St. Louis, look like a novice in their quarter-final match. Fraser won 6-3, 6-3, 6-3.

## Sacred Heart Volleyball Team Takes Beating

The Sacred Heart volleyball team received a 24-14 drumming at the hands of the Green Ridge girls in the opening round of the PBCAA conference tournament being held at Cole Camp this week. In the first basketball contest of the evening, Hughesville trounced Green Ridge 53-38.

High scorer for the Sacred Heart girls was Virginia Stohr with five points, while Kay Kindle served for seven points for Green Ridge.

In other games of the evening, Cole Camp cagers defeated Lincoln 50-39, with Lange doing most of the scoring with 18 points. High for Lincoln was McCain with 15 markers. The final game of the evening was a volleyball game between Hughesville and Smithton, the latter taking a 32-25 loss.

Playing tonight will be: LaMonte vs Warsaw and Sacred Heart vs. Smithton, basketball. Warsaw vs Lincoln and LaMonte vs Cole Camp, both volleyball.

## Mr. Stengel Takes Pals On Life Tour

GLENDAL, Calif. (AP)—The inimitable Mr. Stengel—Casey that is—took several hundred friends on an uproarious tour of his 50 years in baseball, from Kankakee to Yankee stadium, with innumerable detours through the English language Monday night.

But at the end, as one could best assemble his scrambled notes today, it was apparent Casey still doesn't know which road to pursue in his astonishing career.

The setting was the exclusive Verdugo Club. The dinner was a salute to Casey's golden anniversary in baseball. It also turned into a humorous lament for his surprise dismissal as manager of the Yankees.

County Supervisor Warren Dorn put it this way: "Next to the firing of General MacArthur by President Truman, the firing of Casey by the Yankees was the most shocking."

Master of ceremonies Leo Durocher, in a moment of high praise for Stengel, said he would like to be a coach for him. Durocher said that when he read Stengel's firing, his reaction was in one word: "disgraceful."

Stengel, however, who shortened his address to something just under an hour, was in gay spirits.

His lengthy description of life in the raw old days finally led in some manner to the need for keeping the men's smoking room on trains in a sanitary condition. Some time later in his discourse Casey tied this commentary of the bad old days to the good new days with this thought:

"Los Angeles fans won't go for anything that ain't first class, like I was tellin' you about them trains."

The dinner adjourned soon afterward.

## Awaiting Diagnosis

## Medic Report Top Priority In Many To Grid Camps

By MIKE RATHET  
Associated Press Sports Writer

The medical report was the top priority item in many pro football camps today with such top-flight talent as Clarence Peaks, Charley Conerly and Johnny Unitas awaiting the final diagnosis of their breaks, bumps and bruises.

Peaks' injury may be a serious blow to the title chances of the Philadelphia Eagles, leading the Eastern Division in the National League but faced with the task of meeting the runnerup New York Giants Sunday in the first of two crucial clashes on successive weekends.

The latest X-rays taken of Peaks' right leg, hurt while the Eagles' fullback was playing against Washington last Sunday, confirmed a fracture of a bone above the ankle. The team physician estimated it will be four weeks before the NFL's fifth leading ground gainer can run.

The possible loss of Conerly for the second time this season heightened apprehension in the Giants' camp, where injured end Kyle Rote is preparing to return to action with an aluminum splint protecting his left hand.

The 39-year-old Giant quarterback twisted his left knee against Pittsburgh and was hospitalized for observation after the New York trainer encased the knee in a metal cast. Conerly's status for the Eagles' game will be determined later in the week.

New York has been particularly hard hit. First-string halfback Alex Webster is just beginning to round into shape after several weeks on the injured reserve list.

Punter Don Chandler also has been sidelined.

Several stitches were required to close Unitas' face wounds but the Baltimore signal-caller is expected to recover from the multiple cuts and gouges he suffered against Chicago's bruising Bears in time for the Colts next game.

Pittsburgh quarterback Bobby Layne returned to form against the Giants after a thumb injury, but the Steelers now may lose end Preston Carpenter. Carpenter has a pinched nerve in his shoulder which is causing considerable pain.

In the American League, the casualty list showed Denver halfback Al Carmichael out for the remainder of the season with a broken leg, but Houston received a hopeful report on linebacker Phil Perlo.

The Oilers, who had to bench All-America Billy Cannon due to ineffectiveness caused by an injury early in the season, will lose Perlo for about three weeks with back injuries. It was first feared he might have suffered permanent damage.

# May Britt Weds Negro Sammy Davis

By JAMES BACON  
AP Movie-TV Writer

HOLLYWOOD (AP)—Negro performer Sammy Davis Jr. wed blonde Swedish actress May Britt Sunday—with the help of friends and celebrities ranging from the sister of President-elect Kennedy to the Duke of Bedford.

Miss Britt, a statuesque blonde from Stockholm, almost missed her wedding when a severe attack of intestinal flu with a 103-degree fever, bedded her hours before the ceremony.

But she made it to the Jewish rites held under a bower of white chrysanthemums in the living room of Davis' home high above Hollywood's Sunset Strip.

"I felt a little woozy," the bride confessed, "but I was able to get through with it because of the excitement of marrying the man I love."

Later Davis said it was his 26-year-old bride who first mentioned marriage.

"She was the one who popped the question," he said.

Miss Britt, wearing a sheath champagne dress with short veil, was given away by her father, Hugo Wilkens of Stockholm. He and the bride's mother flew in specially for the ceremony.

"Sammy is a wonderful personality," said the bride's father in halting English. "I'm happy that my daughter has married him."

The Jewish rites—both bride and groom are converts to Judaism—were performed by Rabbi William M. Kramer of Hollywood's Temple Israel.

Frank Sinatra was best man and Mrs. George Rhodes, wife of Davis' musical arranger, was matron of honor.

As the groom crushed the wine glass under his heel in the traditional Jewish rite, the solemnity of the service was broken by a loudly played record at a party in a neighbor's house. The recording: Sinatra's "Making Whoopee."

After the rites, the bride went to bed. Davis went solo to a reception at the Beverly Hilton Hotel.

There he greeted such famous guests as Janet Leigh, Barbara Rush, Milton Berle, Mrs. Dean Martin, Diana Dors, Jack (Maverick) Kelly, Peter (Lawman) Brown and Louis (77 Sunset Strip) Quinn.

Then he was spotted by Pat Kennedy Lawford, sister of President-elect John F. Kennedy.

"How do you feel, chickie baby?" asked Mrs. Lawford as Davis kissed her on the cheek.

Said Davis: "Man, I feel electric."

He was next greeted by the Duke and Duchess of Bedford.

"I bring you greetings and congratulations from England," said the duke.

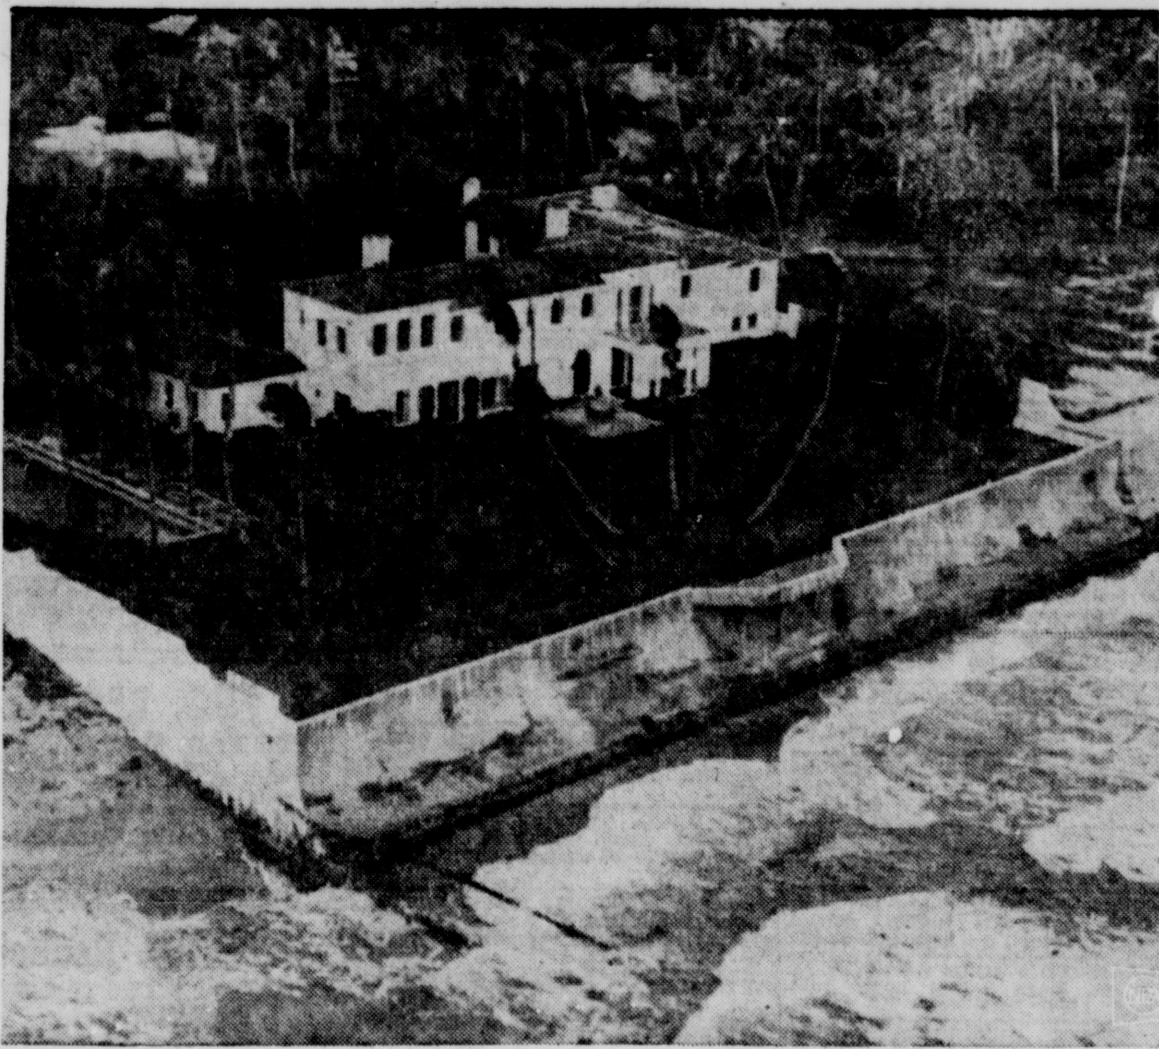

Davis at first demurred at kissing his bride for photographers.

"There are enough haters in the world already who are waiting for that shot," he said.

Later he relented and kissed her on the cheek.

Miss Britt said she would resume her career whenever 20th Century Fox asks her to do a picture, but added: "First, I'd like to start a family."

The marriage was the second for each. Davis was married to Lory White, Negro singer, in 1958. They were divorced after

## The Business World

# Atomic Propulsion Creates Most Excitement In Field

By SAM DAWSON  
AP Business News Analyst

NEW YORK (AP) — Next to atomic power and heating plants, the peaceful use of nuclear energy that most excites the imagination of scientists and general public alike is in the field of propulsion.

Atomic-powered submarines,

ships, aircraft, trains, cars and trucks—and, of course, space devices—also arouse business interest. Government defense and civil agencies are prime movers in most of these studies. But private business gets most of the contracts.

Still ahead lies the dream of turning such devices into transportation, competitive in a profit-and-loss world with the older conventional fuel types.

A report to the Joint Committee on Atomic Energy, Congress of the United States, notes drily: "Reactors and radioactive materials have been considered as propulsive energy for ships, aircraft, ground transport and space devices. None of these, however, holds early promise of being competitive in civilian use."

The search goes on. Many countries with shipping interests explore the possibilities. In the government field the United States already has nuclear submarines, a cargo and passenger ship, and the Soviet Union has an ice-breaker and says they also have atomic subs.

The report to the congressional committee, made at its request by Robert McKinney, who was first permanent representative of the United States to the International Atomic Energy Agency in Vienna, Hungary, suggests that using nuclear propulsion units in conventional hulls may be the wrong civilian approach. He suggests, "there may be a need for a rethinking of marine transport systems and patterns as a whole."

McKinney a former assistant secretary of the interior, who is editor and publisher of the Santa Fe New Mexican, adds: "Systems not now in use, such as sea-trains and submarine cargo ships, associated with advanced high-speed

## Opposition Won't Stop Movie Maker

By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD (AP) — The man on the movie set had a brush mustache, chunky build and mild manner. But when he began to talk, you could see that he had a mission.

That mission is freeing a prisoner he has never seen.

This is no ordinary prisoner. His name is Robert Stroud, and he has been in the nation's toughest prisons for over 50 years, 43 of them in solitary confinement. He is a double murderer. He is also a self-taught genius specializing in the diseases of birds.

The man who aims to free Stroud is Thomas E. Gaddis, who learned about the prisoner 10 years ago. Gaddis dropped his job as Los Angeles probation officer to research and write a book, "Birdman of Alcatraz."

He told how Stroud, an 18-year-old, killed a guard in a dispute and began his long, solitary existence in tiny cells of Leavenworth and Alcatraz.

His escape from madness was in keeping and studying canaries. He produced the authoritative work, Stroud's Digest of the Diseases of Birds.

Gaddis' biography of Stroud came out five years ago. The film version is finally being made after several delays. Gaddis said V. Bennett had tried to stop the filming of "Birdman of Alcatraz."

Harold Hecht is one producer who decided to ignore the federal pressure. He bought "Birdman of Alcatraz" and made a deal with his onetime production partner, Burt Lancaster, to star as Stroud.

cargo-handling terminals, may be explored in the future."

Scientists studying propulsion on the ground — locomotives, off-road vehicles, placer dredges — have run into engineering and radiation hazards more serious than those encountered in stationary atomic electric power plants.

Atomic aircraft has been explored as a possibility but the report to the congressional committee headed by Sen. Clinton P. Anderson, D-N.M., feels that

space technology seems to have dimmed these prospects.

### Mickey Rooney Asks For Alimony Relief

LOS ANGELES (AP) — Actor Mickey Rooney has asked superior court to give him some relief from his alimony payments.

The actor petitioned Monday for modification of terms of a property settlement with ex-wife Elaine Mahnen, 30, his fourth. A hearing was set for Dec. 8.

Rooney claimed a 1959 court order for him to pay her \$1,750 a month was unfair and inequitable. The actor recently claimed that he is broke. He said his current tax liens and debts total more than \$87,000.

### Kennedy Margin Continues to Drop

SAN FRANCISCO (AP)—Continued counting of absentee ballots from last week's presidential election has cut Sen. John F. Kennedy's California margin over Vice President Richard M. Nixon to less than 29,000.

At the end of Monday's tabulations, Kennedy had 3,134,226; Nixon, 3,105,310. The difference was 28,916.

Nixon's ratio in the returns was at 59.4 per cent. In the national vote count, his percentage was 49.7.

### 152 School Children Die In Syrian Fire

DAMASCUS, Syria (AP)—Syria's worst fire disaster in memory killed 152 school children trapped in a burning theater at Amude 400 miles northeast of here on the Turkish border.

Only 40 of those attending the special showing of an educational film Sunday night escaped from the frame building, and half of them were injured. Almost every family in town lost at least one child in the roaring blaze.

The victims were given a mass burial Monday.

### French to Construct A Swanky Prison

TOULOUSE, France (AP) — What the French call the world's most modern prison — complete with swimming pool and a hotel for visitors—will soon be built in nearby Muret. The \$30-million structure, on 24.7 acres, will have a movie theater, athletic field, gym, television room and chapel.

## Winning Essay On What America Means to Me

Jim Friedebach, son of Mrs. Maude Friedebach, 1604 South Osage, a student at Sacred Heart High School, was awarded a \$25 bond for his essay: "What America Means to Me," by the national security committee of the Business and Professional Women's Club, of which Mrs. Louise Altwater is chairman.

This essay contest is sponsored each year by BPWC and the winners in various high schools of Pettis County were: Sacred Heart, James Friedebach, first; Tom

third; Hubbard High School, Janice Louise Smallwood, first; LaMonte, Glenda Gail Reynolds, first; Katherine Louise Ritchey, second and Jack Blythe Hayes, third and Smithton, James Forest Perry, first.

The judges stated that so many good essays were submitted that it was difficult to choose among them but as we read and studied them carefully one thing was apparent to the committee. "These young citizens of tomorrow showed in their writings such sincerity, such earnestness and deep thinking that it touched our hearts and we knew, as we always have known, but must sometimes be reminded, that the future of our beloved America is in safe hands.

The winning essay follows:

### What America Means to Me

"To me, America means democracy in action. A democratic government is the opposite of slavery. Today our great country stands as a citadel of freedom. The very sturdiness with which it stands attests America's strength.

"America means freedom of mind and body. One may think and act as he pleases, so long as he does not infringe upon the rights of his fellow countrymen. He may make laws to govern, rescind them and try again for perfection. He may own property with real ownership in America. True, taxes are high, but freedom is never cheap.

"Dear to the heart of every American is the right of every man to rise as high as his intelligence and determination will permit. Free American enterprise has made this possible and I would guard this heritage with my life. America stands or falls on its ability to produce. To produce for itself — and a starving world.

"Of course, production has many faces. Production of food, materials, and other living necessities. Production of mind. Minds with the great complexities that face us. And the production of healthy, God fearing men and women who love America truly for the great country she is.

"America also means religious freedom. To a Catholic, as well as to his Protestant brother, freedom of religion is so essential to his well-being that a lack of religious freedom could dim every other freedom America has to offer.

"And as I said, America means democracy in action. Yet democracy in action is hard to explain, for it is something people live.

"All of these things are America to me — Law and Order, Love and Life, Rich and Poor, Bad and Good — with each family and person unique and individual, yet united as Americans."

### Knob Noster OES Elects New Officers

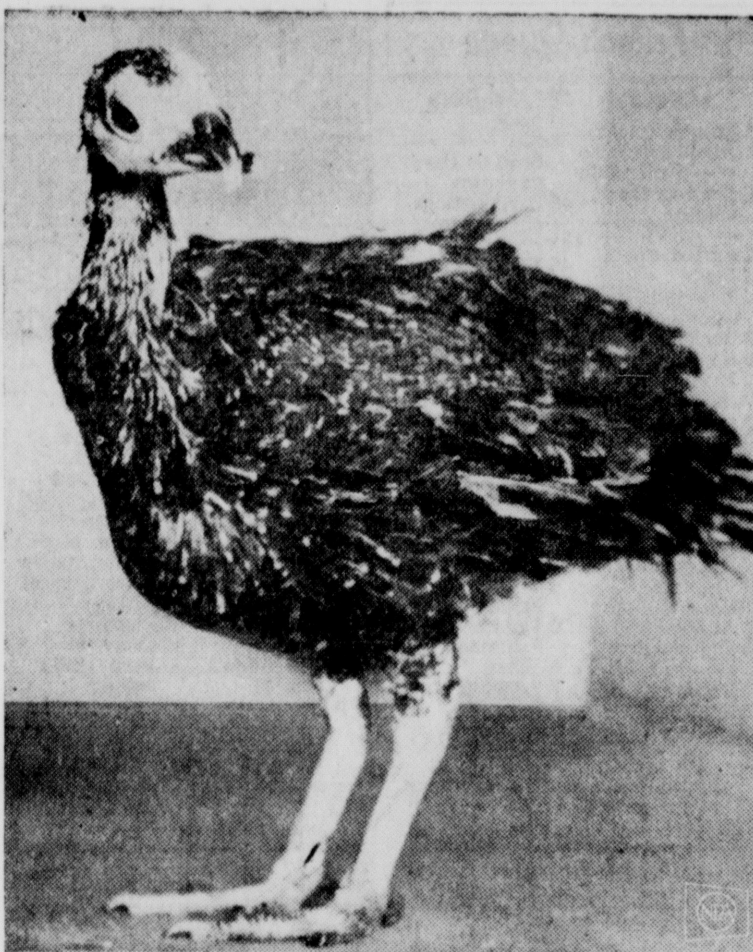

At a meeting of the Knob Noster Eastern Star Chapter Thursday evening Mr. and Mrs. Donald Merrick, LaMonte, were given the initiatory work.

Mrs. Wilbur Allen, Mrs. Irene Tittsworth, Windsor, and Mrs. Darrell Pinegar, Knob Noster, were visitors.

The following officers were elected: worthy matron, Mrs. Fred Neitzert; worthy patron, Charles Covey; associate matron, Mrs. Albert Poore; associate patron, Albert Poore; secretary, Mrs. Merle Matthews; treasurer, Mrs. Roy Baker; conductress, Mrs. Theodore J. Putman; and associate conductress, Mrs. Robert O. Schempp.

The other officers will be appointed by the worthy matron elect.

At the close of the meeting refreshments were served.

## Questions Bring Trouble If You Give Wrong Answer

By HAL BOYLE

NEW YORK (AP) — Questions that only lead to trouble — if you don't watch your answers.

"Will you have one more for the road?"

"My little boy tells me that your little boy has been bragging that his father can knock the block off my little boy's father. Do you believe that yourself?"

"Do you want me to see if I can fix your television set? I'm no expert, but it's probably just a loose connection, so if you'll just get me a pair of pliers, a hacksaw and a hammer, I'll be glad to."

"Really, this time I want your honest opinion. What do you think of my new hat?"

"Where d'ya think you're going — to a fire?"

"Oh, it's only midnight. Don't you want to stay for just one more hand, and recoup your losses?"

"If your young daughter loves to see kittens, why don't you bring her by our house this afternoon? We have six new-born ones."

"It is okay then if we put you down to play Santa Claus at our annual Christmas party? I can tell you now, you'll have the time of your life."

"If you think these martinis aren't quite dry enough, perhaps you'd help me make the next batch?"

"Don't you think if you gave the wheel a sharp turn to the left, you could squeeze the car in there without tearing off that guy's bumper?"

"Are you the father of the little boy who has been going around the neighborhood demonstrating his new slingshot?"

"Every time you come home from a college reunion you start talking about that girl you dated when you were a sophomore. Just what did she have that I don't have?"

"Offhand, what do you think of the idea of inviting mother to spend the winter with us?"

"The band instructor says junior has natural musical talent. Is it all right if I let him start taking tuba lessons?"

"Which dress does the most for me — the \$125 cocktail gown or the \$39 sheath?"

"Are you just going to stand there and let that big bully insult me?"

"Just who do you think you're pushing, Mac?"

"If something happened to you, you would want to leave your dear ones amply protected, wouldn't you?"

"Daddy would you mind showing me how you used to turn a cartwheel when you were a boy?"

"Mind you, I don't like yes men. What's your frank opinion of how I'm running the department?"

"If you think it should be easy to run a house on the money you give me, how would you like to try it yourself for a week or two?"

"Just for the fun of it, how'd you like to act as umpire for our Little League games this season?"

"All right, big mouth, just tell me what you think your life would have been like if you hadn't married me."

## 'Sandmen' May Live On Planets

By FRANK CAREY  
Associated Press Science Writer

PHILADELPHIA (AP) — There may be true "sandmen" on some yet undiscovered planets, a team of University of Pennsylvania scientists said today.

The sandmen were envisioned as living creatures having silicon — an essential constituent of sand and rocks — as their basic component, instead of carbon. The latter is the key element in the chemistry of all life on earth.

The researchers told about it in a report prepared for the opening of the autumn meeting of the National Academy of Sciences.

The team, headed by researcher M. Abedini, also envisioned that some day vitamins and hormones, for use in medical fields, might be prepared from sandy substances.

The Penn researchers said that for the first time they have prepared new, simple silicon-containing compounds which are closely analogous in both chemical and physical properties to a number of familiar compounds based on carbon.

One of them is a silicon-based "ether" which is the exact counterpart of the widely known pain-killing compound — except that it contains atoms of the element silicon instead of the usual atoms of carbon.

The scientists said: "At the present time, our knowledge of these simple silicon compounds is at the stage where carbon chemistry was 150 years ago.

"Since all living substances contain both simple and complex carbon compounds, it is somewhat fascinating to wonder whether silicon compounds will, within the next 150 years, be introduced into living substances in place of analogous carbon compounds."

They added: "It is possible that living 'things', with their chemistry based on silicon instead of carbon, may exist in some of the billions of yet undiscovered planets having an atmosphere of different composition from that on earth."

### Mrs. Mueller, Hostess To Pilot Grove WPFA

Mrs. Henry Mueller, of Pilot Grove, was hostess to the members of the WPFA and two visitors, Miss Rose Wessing and Mrs. Susie Grotzinger, for an afternoon meeting.

The president, Mrs. Phillip Day, opened the meeting with group present.

The following reports were given: Mrs. Herman Ries on Family Night; Mrs. Arthur Schuster on Board Meeting and Mrs. C. S. Shay on the District meeting held at Russellville. Mrs. Henry Mueller read the Messenger and Mrs. Arthur Schuster talked on JFA.

Birthday gifts were received by Mrs. Shay, Mrs. John Kempf and Mrs. Phillip Day.

The next meeting will be an all day session with Mrs. Gerald Wirths with Mrs. Phillip Day as hostess.

### Seven Counties Represented

## Boonville Deanery Meeting Is Held In Sedalia Sunday

The Fall meeting of the Boonville Deanery was held in Sedalia at St. Patrick's School Hall Sunday, with 72 delegates from 11 Catholic parishes in five of the seven counties which make up the Boonville Deanery Council of Catholic Women, attending. Represented were Benton, Cooper, Howard, Moniteau and Pettis Counties. The other two counties are Morgan and Saline.

The meeting was opened with prayer by the Rev. J. T. Nolan, pastor of St. Patrick's Church, in memory of Monsignor Harold Beeler, the Spiritual Moderator of the Boonville Deanery, who was stricken the day before the summer meeting of the Council and died on Sept. 7.

In the absence of the expected speakers, Father Savage from Centralia and the Diocesan president, Mrs. E. William Decker of Jefferson City, Father Nolan gave a short message.

Taking an article from the Sunday morning Sedalia Democrat-Capital: "Both Christianity and Crime Rates at an All-time High" Father Nolan stated this is a disturbing indication that the Catholic population, even in those cities where they have been proved to be no longer a small minority group, has not had its proportional impact on the public conscience.

"Catholic Women of the Councils of Catholic Women," he pointed out, "Could do much to improve this situation by forming their own consciences, informing themselves of the mind of the Church and in their every day contacts presenting the Christian attitude of ways for dealing with social problems such as the prevalence of crime mentioned in the newspaper article."

In the business meeting the four Deanery chairmen from the Sedalia area who were selected the previous year under Monsignor Beeler were asked to continue another year in their offices: Mrs. Margaet Youngkamp, 816½ South

### Japanese Medical Workers on Strike

TOKYO (AP) — Some 3,500 Tokyo nurses and medical attendants launched the third of a series of one-day strikes today for a minimum monthly wage of 10,000 yen — \$27.77.

The strike by the Tokyo Federation of Medical Workers hit 20 hospitals and threatened to curtail treatment of 12,000 patients.
